

POLITICS

Course content

At the heart of studying A Level Politics lies an opportunity to address important questions and to learn more about the society in which we live.

A Level Politics provides an opportunity to study the British political system, learn about the major political ideologies which have shaped our world and a chance to study comparative politics through the prism of US Politics. Throughout the course, students are encouraged to think critically, become engaged with the issues that affect them and develop distinct and transferable intellectual skills.
